

Commercial Manager

- **Pilbara Region FIFO 9/5**
- **Prominent Mining Group**
- **Substantial Salary and Benefits**

This prestigious mining company is part of an Australian blue chip group with national and global operations and an enviable track record of success and growth. Recent significant expansion has predicated an outstanding opportunity for an experienced Commercial Manager to enhance their career in the mining sector.

This is a diverse and interesting position which will enable you to experience the full range of activities that materialise on a sizeable operational mine site. Working closely with the Project Manager and Regional Financial Controller with full support from a solid senior management team, you will apply your commercial, accounting and administration management skills in a dynamic environment.

The role involves the management of all non-production related activities and the supervision of the accounting and administration team. You will be responsible for expediting the month end reporting process, in addition to preparing monthly budgets, forecasts and business analysis. With superior people and leadership skills, you will work closely with operational managers, providing financial support and ideas for process improvements.

P76-686 You will have commercial accounting experience in the mining industry, preferably with mine site exposure, coupled with relevant tertiary qualifications. Effective interpersonal skills, a high level of motivation and the ability to work autonomously, are paramount.
