

Business Unit Manager

- World Leader • Growth Organisation
- Critical Services to the Mining Industry

Are you looking for the challenge and excitement of taking over a successful business unit and through management and development, growing the business unit to its full potential?

This dynamic organisation has built their critical and essential mine services company through excellence, attention to detail and innovation. Their reputation is second to none and as such they are considered to be world leaders in their field. Due to significant growth they are looking to employ a Business Manager to ensure the efficient and effective management and improvement of this business.

Reporting to the Directors of the Organisation, you will lead a team of experienced site based emergency professionals ensuring that your team meets client commitments and provides work to the highest quality standard.

The essential criteria will include the following:

- Proven managerial skills and the capacity to lead a remote team
- An ability to manage multiple tasks and meet tight deadlines
- Highly-developed interpersonal skills and the ability to relate positively and confidently on an individual level with a diverse range of internal and external clients
- Outstanding organisational, analytical and problem-solving skills
