

# PROJECT ENGINEERS (2)

## Civil and Building Contractor

Our client is an international specialist **civil/structural/remedial/geotechnical and building contractor** and designer who is currently working on major prestigious civil and building projects in Australia and overseas. The company is presently in a strong growth phase operating at both **Head Contractor and sub-contractor** levels.

The Sydney office is now seeking to appoint at least two **Project Engineers** with 2 to 5 years of relevant construction experience. Reporting to the Construction Manager, your responsibilities will be to manage the **successful delivery of multiple projects** ensuring they are **planned, tracked, delivered and completed to the highest of standards**. You will be the face of the company at site level, interacting with Project Managers and Contracts Administrators.

The suitable applicants would be expected to have relevant tertiary qualifications in **Civil/Structural Engineering, Construction Management or Building** with a proven history of working either in a head or sub-contractor environment.

The role presents excellent challenges with an attractive salary package on offer which is supported by a well defined career path. If you would like to know more, then please call **Bill Inglis on 02 9439 2977 or Mike Hayes on 0411 545 767**.
