

# MARINE/OIL & GAS STEEL FABRICATION

## Tax Free Dubai

Our client is a highly successful Western-owned steel fabrication and oilfield engineering company that has played an important role in the development of the offshore industry in the Gulf for over 30 years and operates sophisticated and well equipped fabrication facilities in Dubai. Their fabrication capability includes FPSO topsides, turrets, process modules, offshore accommodation modules, jack-up drilling rig upgrades, plus land rig refurbishment and mechanical overhauls to API certification. A growing quota of work offers long term career opportunities with outstanding expatriate benefits for the following positions:

### **HSE Manager (ref: PR/4048)**

10+ years experienced HSE Manager with exposure to large steel fabrication projects, ideally within an offshore structures or dockyard environment. Formally qualified in HSE Management.

### **Construction Manager/Jack-ups (ref: PR/4047)**

15+ years experienced Construction Manager of oil and gas related work in a large fabrication facility. Success and mentoring in this role will lead to senior operational responsibilities for the whole facility.

### **Yard Superintendent/Land rigs (ref: PR/4046)**

Must have welding/fabrication mgt background and preferably experience of land rig new build or refurbishment work to API standards.

### **Project Manager/Land rigs (ref: PR/4045)**

Project responsibility for land rig refurbishment projects with values around \$4m. Several years drill rig experience preferred.

### **Chief Planning Engineer (ref: PR/4043)**

A technical engineering degree or equivalent (BSc HND) is required plus 5 years in-depth experience in an engineering office, ideally within the oil and gas, and/or marine sector. This role has several Planners & Assistant Planners as reports.

### **Quality Manager (ref: PR/4042)**

10+ years of Quality Assurance and ISO 9001 Management systems with a Degree in Engineering and steel fabrication background.

### **Fabricator/Welder Training Manager (ref: PR/4038)**

A skilled tradesman who has a technical engineering diploma and at least 5 years as a Manager/Supervisor in Marine/Oil & Gas fabrication and some experience of designing and implementing technical training courses.

Full family status with tax free salary and all the expatriate benefits are offered by this employer - furnished accommodation plus utilities, phone, schooling, car, relocation and annual air tickets.
